## VALUATION METHODOLOGY

### How was the valuation determined?

#### CLAIM INSPECTION

STATE FARM INSURANCE COMPANIES has provided CCC with the zip code where the loss vehicle is garaged, loss vehicle VIN, mileage, equipment, as well as loss vehicle condition, which is used to assist in determining the value of the loss vehicle.

#### DATABASE REVIEW

CCC maintains an extensive database of vehicles that currently are or recently were available for sale in the U.S. This database includes vehicles that CCC employees have physically inspected, as well as vehicles advertised for sale by dealerships or private parties. All of these sources are updated regularly.

#### SEARCH FOR COMPARABLES

When a valuation is created the database is searched and comparable vehicles in the area are selected. The zip code where the loss vehicle is garaged determines the starting point for the search. Comparable vehicles are similar to the loss vehicle based on relevant factors.

#### CALCULATE BASE VEHICLE VALUE

Adjustments to the price of the selected comparable vehicles are made to reflect differences in vehicle attributes, including mileage and options. Dollar adjustments are based upon market research.

Finally, the Base Vehicle Value is the weighted average of the adjusted values of the comparable vehicles based on the following factors:

- Source of the data (such as inspected versus advertised)
- Similarity (such as equipment, mileage, and year)
- Proximity to the loss vehicle's primary garage location
- Recency of information

These vehicles may be equipped with a driver or passenger frontal air bag inflator used as a replacement service part, that may explode due to propellant degradation occurring after long-term exposure to high absolute humidity, temperature and temperature cycling.

**Consequence :** In the event of a crash necessitating deployment of the frontal air bag, an inflator explosion may result in sharp metal fragments striking the driver or other occupants resulting in serious injury or death.

**Remedy :** Ford will notify owners, and dealers will inspect the driver and passenger air bag module, and replace either the module or the inflator, if necessary, free of charge. The recall is expected to begin March 8, 2021. Owners may contact Ford customer service at 1-866-436-7332. Ford's number for this recall is 21S05.
